DE-80 Data Sheet

Equipment description – Catalytic Combustion SRCO 250E is a 300 scfm all electric catalytic oxidizer. gas/liquid separator with auto drain, Sutorbilt 4L positive displacement blower, 7.5hp electric motor, v-belt drive, exhaust silencer, SCH 40 carbon steel piping, 300 scfm electric catalytic oxidizing chamber with two stage catalyst designed for 99% DRE, exhaust stack, skid mounted. NEMA 4 control panel. Honeywell 3 pen chart recorder.

Model number	SRCO 250E	Serial number	DE-80
Maximum air flow capacity	300 scfm	Maximum blower vacuum	10 in hg.
Length	8 feet	Width	6 feet
Influent process connections size	3 inch NPT	Exhaust stack dimensions	6 inch diameter 12 feet tall
Electrical requirements	230 volt single phase	Sub panel amp rating	200 amps, install 200 amp breaker
